UAE PASS digital signature feature introduced to EmaraTax

The Federal Tax Authority (FTA) announced that the single sign-on feature of UAE PASS – the first national digital identity – has been introduced to the EmaraTax platform, which tax system registrants can use in all procedures and services on the platform, available through the official FTA website, further advancing the sweeping digital transformation taking place across the UAE.

The Authority stated that the new feature was launched in collaboration with relevant authorities, and designed to meet the highest standards of security, confidentiality, and accuracy of information and procedures, in an effort to speed up processes, improve user experience, and meet customers'

aspirations. Mr Abdulla Al Bastaki, Executive Director of the Information Technology Sector at the Federal Tax Authority, called on all FTA customers to take advantage of the new feature and activate their UAE PASS accounts, and then use them to access the Authority's services quickly, easily, and from the convenience of their devices and smartphones with no need to set a new username and password.

FTA's Abdulla Al Bastaki explained that launching the single sign-on feature using UAE PASS forms part of the continuous development and upgrading of government services, using the UAE's advanced digital infrastructure, which is among the most developed not only in the region but also internationally. "All of this was made possible by the forward-looking vision of our wise leadership, which aims to forecast the future with strategies and initiatives designed to enhance the efficiency of government systems, improve quality of life for individuals, establish a sustainable environment, and promote happiness and wellbeing in the community," he said. "The agreement also aims to offer an added value for users, allowing them to save time, cost, and effort while offering them faster processing time for services and increased flexibility of data.

DgTx leverages technology to simplify taxation in UAE

The UAE is known for its advanced and innovative technology solutions. The country is constantly working to simplify and streamline various processes to make life easier for its citizens and businesses. One such area where the UAE is making great strides is in the field of taxation. Parvez Sultan Rupani, chairman at DgTx, said: "The UAE government has taken several steps to streamline the taxation process for businesses. And digital taxation further

simplifies the whole process by providing real-time updates on tax payments and returns and allowing taxpayers to file and pay taxes on the go."

DgTx is a corporate and VAT compliance company leveraging technology to simplify the taxation process in the UAE. It aims to help businesses quickly navigate the complex world of taxation and make tax compliance more efficient, transparent, and convenient for taxpayers. "Our company understands the complexities involved in corporate tax and VAT compliance, and it's committed to making the process as seamless and hassle-free as possible for businesses in the UAE," added Rupani. DgTx provides complete corporate tax and value-added tax (VAT) consultation, accounting, and submission services following the Federal Tax Authority (FTA) guidelines.

One of the complementary features of DgTx's services is 'Snap & Post', an innovative technology solution that allows customers to share their invoices easily. The taxpayer will only need to upload a picture of the invoice through the mobile app, which is available on Android and iOS platforms. The Snap & Post feature eliminates the need for manual data entry and reduces the chances of errors, making the process faster and more efficient. In addition to the Snap & Post feature, DgTx provides various solutions to simplify the Corporate Tax and VAT compliance process, including e-filing and e-registration. The company's e-filing platform allows taxpayers to file their tax returns and make payments electronically, saving time and effort. The e-registration system streamlines the registration process.

DgTx is at the forefront of leveraging technology to simplify taxation in the UAE. It is a strategic partner of Etisalat and offers end-to-end value added and corporate tax services to all businesses across the UAE through the platform. The company provides post-paid billing options, which come in the monthly Etisalat bills of the customer so they can pay quickly.

DgTx's digital way of taxation makes the tax compliance process more efficient and convenient and ensures that the data is accurate and up-to-date: this helps to reduce the risk of errors and saves time in the event of a tax audit. The company's audit system supports the tax audit process, helping to reduce the time and effort taxpayers require.

VAT Public Clarification Amendments to Emirates' Reporting Electronic Commerce Supplies by Qualifying Registrants

Following the Ministerial Decisions on which criteria and conditions for electronic commerce for record keeping of the supplies made, the Federal Tax Authority (FTA) has issued a public clarification VATP033 guide of the approved amendments for the Emirate Reporting. VATP033 covers reporting guidelines for taxable e-commerce registrants on the reporting of standard rates

supply. In addition, taxable e-commerce registrants are required to track and keep records of supply made from and to each Emirates.

Taxable persons supplying goods and services through electronic commerce which exceed AED100 million over a calendar year are referred to as “Qualifying Registrants”. From 1 July 2023, Qualifying Registrants are required to report supplies made through e-commerce in box 1 of the VAT Return based on the Emirate in which the supplies of the goods or services are received by the customer, and keep the relevant supporting evidence.

RVG Chartered Accountants broadened its services by launching new auditing Division, Metha Rashid Accountants and Auditors

The new Division of RVG Chartered Accountants as Metha Rashid will provide a full range of auditing services to clients across various industries, including financial statement audits, internal audits, and compliance audits.

"As our clients' businesses continue to evolve, it is essential for us to offer a comprehensive range of services that can help them meet their financial reporting and compliance obligations. Metha Rashid accountants and auditors will provide high-quality auditing services that will help our clients meet their needs and exceed their expectations."

FTA publishes Emaratax Reconsideration request User Manual

The UAE Federal Tax Authority (FTA) published a manual Reconsidering request User Manual providing steps in submitting a Reconsideration request. In addition, FTA aims that the manual will also help users navigate through the Federal Tax Authority (FTA) website and create an Emaratax account. Taxable persons supplying goods and services through electronic commerce which exceed AED 100 million over a calendar year are referred to as "Qualifying Registrants".

From 1 July 2023, Qualifying Registrants are required to report supplies made through ecommerce in box 1 of the VAT Return based on the Emirate in which the supplies of the goods or services are received by the customer, and keep the relevant supporting evidence.
